DeTomaso is not listed in top 10 mfgs points after 1979. In 1981, the IGT Series was changed to 'World Endurance Championship' racing. That Series was discontinued in '86, replaced by 'World Sports-Prototype Championship', then to 'World Sports Car Championship' in 1991-92; finally cancelled in '93 by the FIA due to lack of 'sufficient' international participation.

On next pg are a few **regional** Championship series results-

To my knowlege, the last high-performance DeTomaso sportscar buit- the Guara- was never raced in any professional series. It's predecessor, the Maserati Barchetta ran in an aborted one-make series called Grantofeo Barchetta while under DeTomaso ownership in 2002-2003 (16 events total).
