Vehicle Description

1971 DeTomaso Pantera. Nice unmolested vehicle. This Panther has been in heated storage for 15 years and the mileage is believed to be correct. Appx 750 miles have been put on the clock during this time. The 351C has a fresh top end with new cam, intake and carb. The engine was removed and block cleaned, inspected, new bearings installed and put back into service. It has a brand new MSD distributor and 6AL box, which was installed 1 month ago. The engine is super clean and looks very fresh. The trans is in great condition and shifts normally. You do have to mash clutch to the floor to get into reverse, (which is normal for Panteras with stock slave cylinders), but goes in every time. New clutch was installed when engine was out. It has new half shafts and upgraded brake rotors and calipers. This spring I had it aligned. The engine and trans have recently been serviced. The interior is almost perfect with no rips or tears. The carpet is showing some wear on the drivers side. The headliner has a slight sag to it. Now for the bad. The paint is what I call ok. Most people think it looks great, but not up to par for my standards and I feel it deserves fresh paint. It has at some time had a front air dam installed as there is evidence from small holes drilled in lower front apron. It has a small seam crack on the right rear upper quarter panel appx 3 inches long. The windshield trim on the lower corner passenger side is popped out of the seal and will not stay down. The rubber is too hard to hold it in place due to shrinkage and needs to be replaced at some time. The car overall looks great and drives well. There is no play in the steering or suspension ball joints as you would expect from a car with this low of miles. It is tight. There is no evidence of structural rust on this car as I have had it on the lift many times and inspected every inch. All Panteras has some surface rust underneath, as does this one, but it is as little as I have seen on any other one. I would be a liar if I said there is none, but the rust it does have is of very little if any concern except for cosmetic reasons.

If you have interest in bidding on this car, please feel free to ask questions first as all sales are final. I have tried to describe this car to the best of my knowledge. All questions can be answered at 360-866-8615 M-F 7:30-5:30. Ask Bret.

This vehicle is relisted. Please do not bid unless you plan on purchasing the car.
